WORK EXPERIENCE

Industrial Design

Freelance

Jan. 2020 - Present

- Build soft good patterns from designer renderings and briefing meetings
- Cut, sew and finish sets of functional soft goods prototypes for trial testing
- Process and finish unique and complex woodworking jobs from CNC tooling and traditional methods of fabrication, all the way through packaged delivery of pieces

Instructional and Shop Assistant

CSULB Design Department

Aug. 2019 - Present

- Train students in practices of 3D CAD and conventional physical modeling
- Teach creative problem solving and help students work through unique obstacles
- Work with primary instructor to establish schedules and project parameters
- Teach methods of 3D printing, laser cutting, basic electronics, and sewing

Attractions Cast Member

Disneyland Resort

April 2019 - Present

- Uphold the values of safety, courtesy, inclusion, show, and efficiency
- Enhance guest experience by contributing to the qualities of show and service
- Operate heavy machinery in forms of simulators, driven vehicles, and omnimovers

Fabrication and Assembly

Sierra Conveyor Company

Jan. 2014 - Sept. 2016

- Complete conveyor fabrication and assembly jobs from technical drawings
- Fabricate and package heavy conveying equipment for transport
- Problem solve and adapt to unexpected issues to ensure the best end product
